

3rd ESHO School on Clinical hyperthermia

Hands-on: The Netherlands, June 29-30, 2022
Refresher: Gothenburg, September 12-13, 2022

The multi-disciplinary ESHO school is intended for those who are new to the fields of hyperthermia and thermal ablation, and for those who aims to update their knowledge in a refresher course. The Hands-on will provide participants with a better understanding of practical aspects of clinical application of hyperthermia as well as preclinical research with focus on biology and physics. Refresher will consist of lectures from well known experts on biology, physiology, physics & clinical applications.

Participants are expected to gain a better understanding of the field, especially outside the areas of their immediate expertise.

Participants can register for the 2 x 2-day program including full board at the special price of € 950,-. It is possible to register for only Part I. or II. for € 550,-. The number of places is however limited so be fast and make your registration today with Hana Dobsicek Trefna (hanatre@chalmers.se)

Directors: Hana Dobsicek Trefna (SE)
